

LymphomaHub

A global educational website
providing up-to-date information on a range of lymphoma
subtypes and chronic lymphocytic leukemia, including
summaries of primary literature, drug approvals, case studies,
expert opinions, and live congress coverage.

www.lymphomahub.com

The vision

of the Lymphoma Hub is to become the leading online resource providing medical information in lymphoma and chronic lymphocytic leukemia for hem-oncologists.

The mission

of the Lymphoma Hub is to provide up-to-date, practical, clinical information and advice to hem-oncologists seeking treatment options for lymphoma and chronic lymphocytic leukemia, to improve the lives of patients.

Organizational structure

The Lymphoma Hub is chaired by Gilles Salles and co-chaired by Anas Younes, and is supported by a tiered committee structure:

- **Executive Steering Committee**
- **Scientific Advisory Board**
- **Innovation Committee**

These global experts provide content direction, clinical data insights, and guidance on the latest breakthroughs and advances. They support our momentum and vision.

Professional support

1 Unique online resource for lymphoma and chronic lymphocytic leukemia

A comprehensive website featuring the latest medical information, drug approvals, license and trial updates, clinical trials, and international congress coverage. We take pride in covering the latest therapy areas ahead of publication, for example trial outcomes in CAR T-cell therapy.

2 Endorsed by global leading experts in lymphoma and chronic lymphocytic leukemia

The Lymphoma Hub collaborates with world leading experts, who share their knowledge and opinions through feature articles and video interviews.

3 Expanding social media network

Expanding social media network to engage with a wider and global community. The Lymphoma Hub is active on all major social media outlets, sharing the latest and emerging medical information.

4 Impacting real-world clinical practice

Targeted medical education designed to deal with the challenges faced by hem-oncologists and other healthcare professionals (HCPs) involved in lymphoma and chronic lymphocytic leukemia treatment. The central aim of the Lymphoma Hub is to impact clinical practice by enabling HCPs to make the best treatment decisions.
